

80%

of human body is made of water. of deaths are because of water.

80% of diseases leading to death have water as the main factor for their cause. So what you really need in today's unhygienic water conditions, is a 100% effective water purifier that not only stops the germs from breeding, but also destroys them on contact.

Allow us to introduce you to 7-stage. A purifier which uses the same technologies that are employed by NASA-USA, to eliminate a wide range of bacteria, viruses and other harmful micro-organisms. It involves the latest silver / iodized carbon block and purification resin technologies and a unique seven-contact process for making your drinking water microbiologically pure. The bottom line is, we'll make you germ free.
